Cor. Hudson and Spring Streets,

NEW YORK, 1894.

Dear Sir:

We herewith present you with our Annual Price List, **Revised and Enlarged**, to which we call your special attention.

We manufacture every variety of goods in our line which are not included herein. and for which we will quote you prices on application.

Shall be glad to receive a call from you to personally examine our work.

The display of **Wood and Marbleized Slate Mantels, Tiles, Fire-Places and Fine Cabinet Work** in our large show rooms is well worth a visit.

Respectfully soliciting your orders, we are

Your obedient servants,

THE BRADLEY & CURRIER CO., Limited.

INSTRUCTIONS FOR ORDERING.

By particular attention to the Sizes of Doors, pages 14 to 18, and of Windows, pages 19 to 21, before making frames, two advantages will be gained ; a great saving of expense, and a guarantee of prompt shipment.

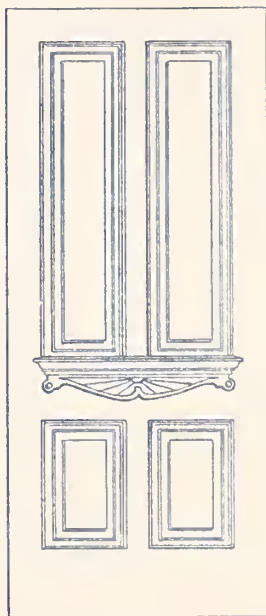

In ordering, always use great care in minutely describing goods wanted. In orders for doors give size, thickness, quality and how moulded ; Sashes, glazed or unglazed, size, thickness, number of lights, and " Pl." or c. c. ; Blinds, exact size, plain or painted and trimmed, for frame or brick building, and kind of trimmings.

Stairs, carefully observe directions, page 35, and use the same caution in ordering odd sizes or special work, giving a rough sketch when practicable. By carefully attending to the above, many annoying mistakes will be avoided.

Give shipping instructions very plainly, stating route, and when you wish goods sent.

CORNER BLOCKS.**Turned Centre—Pine or Whitewood.**3 $\frac{3}{8}$ in. x 3 $\frac{3}{8}$ in. x 1 $\frac{1}{8}$ in.02 $\frac{1}{2}$ c4 $\frac{5}{8}$ in. x 4 $\frac{5}{8}$ in. x 1 $\frac{1}{8}$ in.02 $\frac{1}{2}$ c**KEPT IN STOCK.****STAIRS, ETC.**

We are prepared to furnish **Stairs** of every description ready to put together, of either pine or hard wood.

Stair Railing of every description got out ready to put up, with crooks, etc., worked and finished in the best manner.

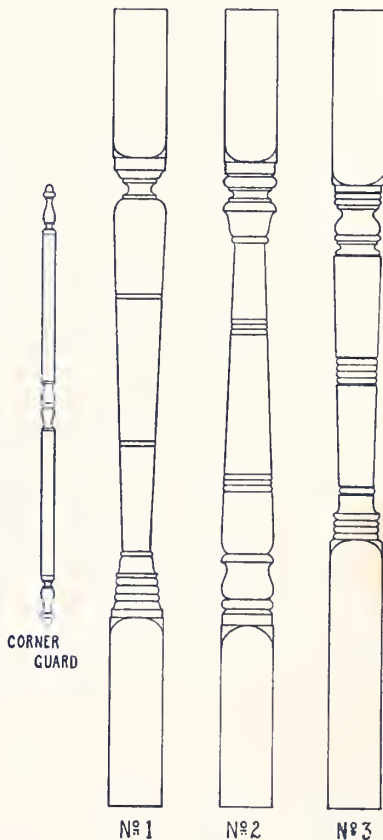

Orders for Stairs should give height of story from floor to floor, with width of joists in second story, width and run of stairs, and size of cylinder, with sketch showing something of the shape wanted and the way they turn on the landing; also style and width of base used in the hall.

Orders for Railing worked for straight flight, should give the rise and tread of steps as sawed out on the string board, and number of risers, the size of cylinder, which way it turns on landing, and length of straight rail required at head of stairs.

For Winding Stairs we should have an exact plan, showing location of risers in cylinder, and width of steps, risers, etc.
